presents
HACKATHON </>
DISCOVER. DESIGN. DEVELOP.

Hackathon 2015 is a 24 hours intra-college event giving a platform to student for showcasing their IT skills. The teams registering for the event will be required to choose a problem statement from pre-defined categories. The teams are expected to develop a working hardware and/or software solution (or a solution with maximum functionality) within 24 hours using any technology/ programming language.
 Top three winners will be chosen by a panel of judges.

OBJECTIVE:
1. Application of theoretical knowledge to develop practical solutions.
2. Healthy competition
3. Programming skill development
